

TAREK SHEREEN DARWISH

Software Engineer — Systems, Linux & Open Source

Cairo, Egypt · tareksheren@gmail.com · +20 103 258 4030 · [linkedin.com/in/Tarekshereen](https://www.linkedin.com/in/Tarekshereen) · github.com/Tu2525 · tu2525.github.io

SUMMARY

Software engineer finishing a B.Sc. in Intelligent Systems Engineering, with a self-directed Rust systems project alongside backend/AI internship work. Comfortable close to the OS: Rust, C++, Linux, Docker. Looking for a junior/graduate engineering role — fully remote, open to any country.

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, Dart, Kotlin, Java, C++, C, Rust, SQL

Cloud & DevOps: AWS, Cloudflare, Azure, Docker, CI/CD, Supabase, Firebase

Frameworks: React, React Native, Flutter, Node.js, Flask, FastAPI, Django, TensorFlow, PyTorch, scikit-learn

Data & ML: Machine Learning, Deep Learning, NLP, Computer Vision, LLM/RAG, Data Analysis (Pandas, Power BI, Tableau)

EXPERIENCE

Generative AI Engineer, Digital Egypt Pioneers Initiative

Cairo, Egypt (Hybrid) · Nov 2025 – Jul 2026

- Built an explainable fraud-detection platform: a 310-feature classifier behind a FastAPI backend
- Layered Gemini over SHAP attributions to turn model output into plain-English risk explanations
- Shipped it end to end — Svelte frontend, Dockerized, deployed to Hugging Face Spaces

Backend & AI Engineer Intern, Aispeak

Madrid, Spain (Remote) · Jul 2025 – Jan 2026

- Built a backend pipeline routing user messages to Azure, processed by a LLaMA-70B model
- Stood up real-time messaging on Supabase; owned database schema design and API development

Backend Engineer Intern, Jiffy

Remote · Aug 2025 – Dec 2025

- Built core backend services: a multi-featured calendar and a containerized auth system in Docker
- Architected and documented RESTful APIs for new features, streamlining frontend integration

Cross Platform Mobile Developer Intern, Link Development

Maadi, Egypt · Jul 2025 – Aug 2025

- Led interns building a Flutter e-commerce app with Clean Architecture, Riverpod and Firebase
- Managed delivery and code quality through feature-branch workflows and pull-request reviews

Mobile App Developer, Digital Egypt Pioneers Initiative

Cairo, Egypt (Hybrid) · Oct 2024 – May 2025

- Designed and maintained native Android apps in Kotlin and cross-platform apps in Dart/Flutter
- Conducted unit testing and implemented Android security protocols for robust app performance

Software Engineer Intern, PETROBEL

Nasr City, Egypt · Sep 2024 – Oct 2024

- Supported a legacy .NET to modern .NET (MVC) migration, cutting system load time by 20%
- Collaborated on Flutter app enhancements that made the app 15% faster

PROJECTS

ZeroClip — Windows Game Clipping Tool — Rust, egui/eframe, windows crate

- Native Windows app with a retrospective DVR capture buffer, hardware encoding and a trim/stitch editor

Risk AI — Industrial IoT Safety Monitor — React, Recharts, Python, Docker, ESP32

- Real-time dashboard reading ESP32 sensors every 2s, predicting gas-leak risk from rate-of-change trends

Beltone Logistics Route Optimizer — Python

- Routing solvers and a network validator for a multi-vehicle, multi-warehouse logistics simulation

EDUCATION & CERTIFICATIONS

B.Sc., Intelligent Systems Engineering, Helwan National University

Helwan, Egypt · 2022 – 2027 (expected)

Digital Egypt Pioneers Initiative: Generative AI Track (2025–26), Mobile Development Track (2024–25) | AWS Cloud Practitioner | Huawei HCIP-AI | Huawei ICT Associate, AI & Cloud | Machine Learning Specialization, Stanford | NLP, NTI | React Native Bootcamp, ITI
